

CITY OF MISSISSAUGA
OFFICE OF THE MAYOR

August 2026

Dear DrInterested and MedX 2026,

On behalf of Members of Council and the City of Mississauga, I extend congratulations for your flagship youth healthcare conference – MedX - taking place at the University of Toronto Mississauga.

I am thrilled MedX is bringing together high school and post-secondary students exploring careers in medicine, healthcare, research, health policy, and education. The interaction – through this conference – with practicing physicians and healthcare leaders promises to be fulfilling.

As a former high school teacher, I find it heartening to see young people taking an active interest in helping to further the future of their peers who are interested in pursuing studies in medicine and healthcare.

As a Councillor in Ward 5, I always served with a keen eye on helping and inspiring the young people in that corner of Mississauga. They are not always the most-favoured, but they are consistently full of dreams and aspirations for their studies.

As Mayor, I have happily shared the responsibility with my municipal team to build a city where young students can envision their dreams and turn those into rewarding careers.

Mississauga is home to a thriving and dynamic healthcare sector employing tens of thousands of people. It is – in fact – going to be home to the largest hospital in Canada, as Trillium Health Partners continues to build a groundbreaking facility here.

We are building the required, critical healthcare infrastructure.

You are building dreams. Thank you!

Sincerely,

Carolyn Parrish
Mayor, City of Mississauga
