August 16, 2026

Dear Participants and Organizers of MedX Conference 2026,

It is my pleasure to welcome you to the MedX Conference at the University of Toronto Mississauga. Thank you to the organizers for bringing together aspiring medical professionals, mentors, and partners for this important day of learning and connection.

The Government of Ontario has been actively expanding healthcare education across the province. We recognized that demand for healthcare professionals had gone unmet for far too long, and we have taken decisive action to address it.

Through the largest investment in medical education in our province's history, the Province is expanding student seats and establishing new medical schools. These measures will train more doctors right here in Ontario, helping us meet the needs of our growing population while maintaining world-class standards of care.

Combined with continued investments in our hospitals and research institutions, these efforts strengthen Ontario's position as a leader in innovation, science, and medicine.

Conferences like MedX form an essential part of this work. They create space for knowledge exchange, new ideas, and the kind of inspiration that helps train the next generation of physicians.

I wish each of you a productive and engaging conference filled with meaningful conversations. To everyone aspiring to join the medical profession: I wish you every success on your journey ahead.

Sincerely,

Kinga Surma
MPP for Etobicoke Centre
